

ED

ELLEN DEGENERES

Greystone Collection

Rustic retro-industrial design, this adorable collection has a reclaimed appeal through the hand scraped and distressed solid woods and tubular metal base. The bold, square shape of the crib is simple and clean. A cornerstone of the ED Ellen DeGeneres line, Ellen's whimsy and love of animals continues to carry through the line with the signature word "joy" etched onto the crib headboard and leather pull accents with etched dog on solid brass tacks of the dresser. Made of solid acacia wood and acacia veneers. Case pieces feature soft-close glides, drawer liners, and edged banned tops. The Greystone Collection is available in Hewn Brown, a 9-step hand finishing process using a water based, low VOC finish.

Available in Hewn Brown

Full Panel Convertible Crib

Item #: 195004-68
